

Graco Launches TruMix XT™ Variable-Ratio Mixing System

April 3, 2024

Industry's First Variable-Ratio System for Mixing 2-Component Floor Coatings

MINNEAPOLIS--(BUSINESS WIRE)--Apr. 3, 2024-- Graco Inc. (**NYSE:GGG**), a leading manufacturer of fluid handling equipment, introduces the TruMix XT™ variable-ratio mixing system. This industry-first solution mixes 2-component floor coatings on demand, enabling contractors to reduce labor costs and eliminate costly mix errors.

Gone are the days of manually mixing in buckets and worrying about costly mix errors. Graco's TruMix XT variable-ratio mixing system is a revolutionary solution for mixing 2-component floor coatings. This system is capable of mixing up to 120 gallons per hour, can support nearly any ratio with superior accuracy, and mix consistency over traditional bucket batch methods. (Photo: Business Wire)

technologies to ensure an accurate and thorough mix, including SmartSync™ Ratio Control, Xtreme Torque™ precision brushless motors, and the CrossLink™ Multi-Stage Mixing Hose. TruMix XT mixes material on demand, allowing contractors to reduce wasted material and maximize the time they have to apply materials. Finally, it features a high-capacity battery that allows contractors to use it as a stationary mix station or take it onto the floor and dispense as they go.
